

## **Parents, we need your help ASAP.**

**Our fundraising campaign has officially started and we need you to help make it a success.**

**Your student has created their Schoolfundr profile for our Schoolfundr campaign. In order to make it a success, we need each family to upload 20+ email addresses of adults you feel could potentially support us. Schoolfundr campaigns are live for 21 days. Schoolfundr automates sending out our custom donation requests. They take care of bookkeeping, they issue thank you messages and tax deductible receipts.**

**Contacts data is not sold or shared as outlined in Schoolfundrs privacy policy at <https://www.schoolfundr.org/privacy-policy>**

### **How can you help? (2 options)**

- 1. Parents / Guardians received an email from their student when they created their Schoolfundr profile. Parents / Guardians can upload 20+ emails into their students profiles by clicking the magic link in that email.**
- 2. Parents / Guardians send their students the 20+ contacts emails digitally for their student to upload into their profile.**

**Schoolfundr is a revolutionary online donation platform. It is designed to give the most money back to schools as possible to elevate what's possible for your kids.**

**Teams using Schoolfundr keep all the money they raise minus the ~3% credit card fee. They make this possible by enabling donors to leave an optional donor tip to the platform. Resulting in an extra \$2000 on average to each program.**

**PLEASE HELP YOUR KIDS FINISH THIS TASK AS QUICKLY AS POSSIBLE.**
